### HACHITA, N. M., MAN CONFESSES ROBBERY

Postoffice Inspectors Say Charles I. Wagner Has Admitted Robbing Mail Which He Carried.

Denver, Colo., Aug. 2.—Postoffice inspectors here announced today that Charles I. Wagner, a mail carrier at Hachita, N. M., had confessed that he was the man who robbed the mail carried by himself, thus solving the mystery surrounding a crime that has puzzled the federal authorities for several weeks. Wagner also confesses, they said, that he shot himself through the arm to give color to his story that he was held up by two Mexicans.

Following the announcement of the robbery, the government sent a squad of soldiers on the trail of the supposed highwayman. Two Mexicans were arrested and identified by Wagner as the robbers. The Mexicans proved alibis and were released. Suspicion then was directed against Wagner, and he finally broke down and told the whole story. He will be tried in New Mexico.

### WAITERS IN BATHING SUITS SERVE BATHING GUESTS

### JUDGE LACES SALOONS AND SOCIETY CLUBS ON SAME LEVEL

Colorado Jurist says "the Saloon is the Coal Miner's Club." As He Sends Sentence on Card Players.

Trinidad, Colo., Aug. 2.—Saloons and clubs for society leaders were placed on the same level by district judge W. A. McHendrie when he refused to sentence five coal miners for gambling in a saloon here.

"The saloon is the coal miner's club room," said he, "and the miners who congregate at night and play poker for the drinks in those places are no more guilty in spirit of violating the gambling law than are the good citizens who play at their clubs, or the society women who play bridge for money or prizes."

Thus judge McHendrie prefaced his remarks in suspending a fine against five miners arrested in a raid on a saloon and pool room here.

At the time of this raid a revolver battle took place between deputy sheriffs and occupants of the saloon, in which one man was killed and the owner of the place wounded. The four deputies who made the raid are under indictment for assault with intent to kill.

## THIN FOR YEARS---"GAINS 22 POUNDS IN 23 DAYS"

Remarkable Experience of F. Gagnon. Builds Up Weight Wonderfully.

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work. I was so weak. Now thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days. Sargol has put 10 pounds on me in 14 days." "It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure."

"I weighed 122 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have ever seen." declares D. Martin and J. Meier adds: "For the past twenty years I have taken medicine every day for indigestion and am not thinner now. I took Sargol for forty years and feel better than have felt in twenty years. My weight has increased from 150 to 170 pounds."

When hundreds of men and women—and there are hundreds, with more coming every day—live in every nook and corner of this broad land, voluntarily testify to weight increases ranging all the way from 10 to 25 pounds, given them by Sargol, you must admit, Mr. and Mrs. and Miss Thin Reader, that there must be something in this Sargol method of flesh building after all.

Hadn't you better look into it, just as thousands of others have done? Many this folks say: "I'd give more anything to put on a little extra weight, but when someone suggests a way they exclaim, 'Not a chance. Nothing will make me plump. I'm built to stay thin.' Until you have tried Sargol, you do not and cannot know that this is true."

Sargol has put pounds of healthy "stay there" flesh on hundreds who doubted all of its flesh producing ingredients. It prepares these fat making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not.
